Dear Mr. Nicholas,

I am very grateful to have a manager like you. Thank you for your support and guidance that I have received over the past three months.

I have never worked in a professional environment before, but after my brief time and interaction with you at Farmer's Choice, I am confident that I can perform as a health and safety professional. all in the future.

Honestly, you really know how to bring out the best in young people.

Your dedication to ensuring that I achieve my attachment program goals and objectives is an inspiration, helps reduce my reluctance to work, and strengthens my motivation to achieve more. You have guided me with respect, I am proud to have learned this quality thanks to you. Thank you for supporting me professionally and personally.

Best regards
